

The following represents a list of Finnish-American and related newspaper holdings of the Finnish-American Historical Archive. It includes only print copies, and does not include the Archive's microfilm collection.

For the convenience of researchers, a listing of the complete dates of the run of each newspaper (when known) is also included, [as well as Finnish-American newspapers which the archive does not hold \(in blue italics\)](#).

In 1985 Dr. A. William Høglund (1926-2008), recipient of Finland's medal of the White Rose and professor of history at University of Connecticut, compiled the *Union List of Finnish Newspapers Published by Finns in the United States and Canada, 1876-1985*, as part of the Finnish American Newspapers Microfilm Project (United Fund for Finnish American Archives, Suomi College, Immigration History Research Center). Professor Høglund's *Union List* proved to be a valuable resource when determining run dates and other information about Finnish-American newspapers.

Items marked with an asterisk (*) indicate Finnish-American newspapers not found in the above-mentioned *Union List of Finnish Newspapers* (1965).
